

PRESS RELEASE

OTK Karting Group and OMP Racing seal partnership deal

Ronco Scrivia, 12 January 2016

2016 karting season starts with an important partnership between two of the most prestigious brands in the motorsport world: **OTK Kart Group and OMP Racing**.

The deal states that, for the upcoming seasons, OMP Racing will be the sole supplier of racewear for all OTK brands and racing teams.

Tony Kart, Kosmic Kart, FA Kart, Exprit Kart and Redspeed Kart are the brands falling under OTK Group.

The partnership deal states that the drivers from OTK racing teams will wear high-end products by OMP, with a unique graphic design for each team. OMP will supply racewear from the **brand new KS1-R line**: shoes, gloves and above all the particularly innovative suit. The underwear will be from OMP KS line.

The **KS-1 R suit** is an amazing fusion of comfort, lightness and breathability, through the use of hypertechnological fabrics developed by OMP. Among the many features of the model that will be used by OTK, there's the total freedom of graphic customization, due to the fact that the suit is 100 per cent printed.

The gear supplied by OMP to OTK is, and so it will be in the future, the result of a close collaboration including a productive exchange of informations between OMP research and development team and OTK drivers who will wear this gear: among them, the multiple world champion **Marco Ardigò** and the defending KF champion **Karol Basz**.

Paolo Delprato, OMP vice president and CEO: "Two years ago, we decided to invest strongly in the world of karting, in order to reach a world leadership position in this field too. The signing of this deal between two worldwide excellences such as OMP and OTK proves the effectiveness of our hard work. OMP and OTK established an active partnership that goes beyond a simple collaboration, and aspires to increase the technical level in the world of karting. OTK's winning philosophy, aiming to more and more ambitious goals, perfectly matches OMP's incessant work towards research, development, innovation. I'm sure we'll be able, together, to achieve excellent results".

Roberto Robazzi, OTK president: "I'm very glad to announce this partnership between OTK Kart Group and OMP. Both our companies' philosophies are a perfect match: both of us aim to absolute quality through obsessive attention to detail, and

constantly carry out research and development work. OMP immediately gave evidence of being an active company, whose products are characterized by unique design and innovative technology. I'm sure our drivers will enjoy this comfortable, light and absolutely safe racewear. Both OMP and OTK Kart Group will take advantage from this already established, and bound to grow, synergy”.

OMP Racing S.p.A

OMP Racing is the leading Italian company for design and creation of safety components for the car-racing sector (fire-resistant suit, seats, steering wheels, safety belts, etc.) Founded in 1973, OMP is one of the few companies in the world able to offer a complete range of articles dedicated to racecars and pilots' safety, with over 5000 products in our catalogue. For more information about OMP Racing, see www.ompracing.com.

OTK Kart Group SRL

OTK means absolute quality, high performance and modern technologies. These have always been the key points of the group's philosophy, grounding its roots in the dawning of kart era. The company synergically manages two manufacturing plants: OTK Chassis Division, manufacturing chassis, and Vortex Factory, manufacturing engines. OTK Chassis Division designs and manufactures chassis for all the brands falling under the group: Tony Kart, Kosmic Kart, Fa Kart, Exprit Kart and Redspeed Kart. Vortex Factory designs and produces engines for winning and high quality karts. The leading position reached by OTK is the definitive proof of the excellent work done by the group.
